Of course I am interested in substantial evidence that can be dated.
Please send the pictures, videos and any lab reports from the radio-carbon dating.

Thanks again and have a great day,

Jack,
I thought I would contact you because of your and your grandfather's work. These past two years I have available exclusively to me many jade, gold and crystal artifacts that many are carbon 14 testing by a university to be between 18,000 and 29,000 years old. I am nearly certain they are from the continent of Mu and some have energy power. We have space craft large and small, rocks that float etc.

I displayed some of the pieces at the Alien Event and spoke at the BioMed Expo all taking place in the same venue in Las Vegas this past weekend September 16th. All the pieces, jade artifacts, crystal skulls and craft are going to be part of my university history college for intensive study.

I put meters on and some show RF but no electricity and many other anomalies. Some ships have radiation and I am leaving those buried and putting those off for a rainy day. We have an unlimited amount of these artifacts. I am convinced that some of the artifacts have healing powers. I am not sure if this email reaches you or if you are interested in my research, but I could send pictures and videos if you want a closer look.

Let me know if you have any questions,

Dr. Johnny
